

# YOUR COMPLIMENTARY INSURANCE VALUATION

**Buildings should always be insured for the amount it would cost to rebuild them. However, fewer than one in ten household properties in the UK are covered correctly.**

If you are over-insured you are probably paying too much for your buildings insurance. If you are under-insured, you face a reduced payout in the event of a claim. Insurance claims can be reduced by hundreds of thousands of pounds due to under-insurance.

Getting someone to visit your property to carry out a professional assessment can be time-consuming and very expensive. However, thanks to our partnership with **RebuildCostASSESSMENT.com** we can

offer you a great service from a 'Regulated by RICS' (Royal Institution of Chartered Surveyors) organisation fully paid for by Ellis David.

You'll receive a comprehensive Rebuild Cost Assessment (RCA) report guiding you on how much you should insure your buildings for.

This is a fantastic online service which can protect you from the potentially severe consequences of underinsurance.
